ABOUT WOORIMIL

Introduction of Woorimil : Prioritize People and the Planet

In the fall of 1989 when Korean agriculture was declining, 180,000 people joined forces to revive production and consumption of Korean wheat and to safeguard agricultural food sovereignty.

To this, “the Headquarters of Revive Korean Wheat Movement” was founded with the mission of producing quality wheat by concluding contract cultivation with farmers, focusing on tireless R&D and offering fresh produce to customers, then sharing profits with farmers to take a lead in cultivating an eco-friendly food industry. Even now, over thirty years since establishment, the mission has set a direction in which Woorimil moves forward.

ABOUT WOORIMIL

Woorimil has been donating 20% of its profits to support environmental causes and vulnerable communities.

ABOUT WOORIMIL

Partnering with Local Farmers, Woorimil

Woorimil directly contracts and purchases 3,000 tons of domestic wheat annually, accounting for 10% of the nation's total wheat production.

As the largest private company in this sector, we significantly contribute to the economic stability of local wheat farmers and the expansion of domestic wheat cultivation areas.
